Heal
Heal from what hurts you
See
See what's beneath you
So now your here and I'll let you in
Show you all what should of been
It will change the way that you see
Give your mind just what it needs

Now let me live
So I can kill
Then all my life
Will be fulfilled

Touch
Touch what creates you
Taste
Taste all that hates you
These are plans that will let you be
One the three that gets closer to me
And when we meet in the dead of night
We'll make a pact of sweet delight

Now let me live
So I can kill
Then all my life
Will be fulfilled

We don't need a future planed
We don't need to understand
We don't need your sorry stares
We don't really want to care

Now let me live
So I can kill
Then all my life
Will be fulfilled
