You're not alone, and you'll never be,  
As long as I'm still breathing you'll be standing next to  
me  
When forever is, all I need, you know I'll never let you  
down

Sometimes life is hard  
Sometimes we can't explain  
How much time is wasted running from the pain  
Lets start at revolution, I want the world to see, the light  
The chance will bring it back you're all I've ever need

Cause you're not alone, and you'll never be  
As long as I'm still breathing you'll be standing next to  
me  
When forever is, all I need, you know I'll never let you  
down  
You're my everything

Sometimes you take the chance, and fall right on your  
face  
Sometimes you can't get up  
Sometimes you can't escape  
Lets start at revolution, I want the world to see, the light  
The chance will bring it back you're all I've ever need

Cause you're not alone, and you'll never be  
As long as I'm still breathing you'll be standing next to  
me  
When forever is, all I need, you know I'll never let you  
down  
You're my everything

I want it, to show  
How much I have to give to you  
And I need this, and I feel  
We got to do all it takes to make this real

You're not alone, and you'll never be  
As long as I'm still breathing you'll be standing next to  
me  
When forever is, all I need, you know I'll never let you

down  
You're my everything

You're my everything

When forever is, all I need,  
When forever is  
You're my everything
