One life and another  
Million to lose  
This is where it all begins  
Think about your life  
And everyone you love  
What would you  
Give up for them?

I'll just ignore the lies  
Pretend that it's alright  
Just look past your face  
I know it's not alright  
How can I believe  
In something that seems so naive  
When even my own truths  
Seem only to deceive  
Me and I  
Don't know  
Where to hide  
Just keep on running until  
The thought subside  
One more seconds gone  
Another moment lost  
Just think what could've been  
But never mind the cost

I'll just ignore the lies  
Pretend I know what's right  
Even though I know  
That I can't win this fight  
The gears that turn with  
A ticking vengeance in mind  
Forcing bliss on us all  
The echoes far behind

What is there to lose  
You cannot stop these hands  
Collecting on the debt that  
Every life demands  
So take advantage of  
The time that we have left

Before your time will come

[Chorus:]

To watch it all fall down  
As it all fades away  
Where do we go now  
When we should have  
Held on  
But what matters now  
As it all fades away  
And the hand stops

I'll just ignore the lies  
Pretend that it's alright  
I'll just look past your face  
I know it's not alright  
Just let it go  
Just let it go  
Sit here and Wait  
I know how hard  
Is is to look past this  
For something more to believe  
And not my own

[Chorus]

You cannot stop  
These hand from ticking away  
They're counting down  
Counting Down
