### CHORUS LINE

Then i got lost and scared  
Because i don't want to fight  
These things were too much to bear  
Though nothing here is wrong  
I'd sworn that all this had been  
And along with the chorus line i sang for you and me  
Then i got up and ran  
Thought all this might belong  
To the trouble and the worries at hand  
If i had caused you doubt  
Don't you know that i believe in these things  
And along with the chorus line i prayed i could hear you  
sing  
What's outside your .. don't let the rain in
