hey
listen up to me
why can't someone understand what i see
you
don't even know how
i tried to tell you but you won't listen to me
it sucked before the flower died
well listen i don't want you to cry

got life in the neighbors
from window to door to door
well if you want my autobiography
got some broken heart
and sometimes i get dark
if you want my auto
want my autobiography
just listen to me

so
i'm crawling down again
while i talk with my friends
i played my guitar
while i'll skateboard to the 360 ollie
again again again

got caring families (i hate them)
and i don't pay the bills
there's 57 drugs in this life for me
got weird holograms
and i take photographs
if you want my auto
want my autobiography
just you listen to me

there's not even a chance to say you're sorry
no other sequence to worry
why can't you people listen to me
wonder about my biography
hey
listen up to me
why can't someone understand what i see
you

don't even know how
i tried to tell you but you won't listen to me
it sucked before the flower died
well listen i don't want you to cry

(guitar solo)

got life in the neighbors
from window to door to door
well if you want my autobiography
got some broken heart
and sometimes i get dark
if you want my auto
want my autobiography
just listen to me
got caring families (i hate them)
and i don't pay the bills
there's 57 drugs in this life for me
got weird holograms
and i take photographs
if you want my auto
want my autobiography
just you listen to me

just listen to me
just listen to me
just listen to me
just listen to
me.
