hey
he doesn't like you
he doesn't even like me
he wants to be alone
hey
he didn't kiss you
nor as everybody else

stop your jealousy
he's not into you or me
stop all your madness
it all turns out to his sadness
don't lie about it
don't hit it
just another way of specialty
don't you know that you're a jealous girl?

hey
he doesn't want somebody on his side
you can't even hide
away from her
you need to get your act together
she's in his life
no use to take it all away from him

stop your jealousy
he's not into you or me
stop all your madness
it all turns out to his sadness
don't lie about it
don't hit it
just another way of specialty
don't you know that you're a jealous girl?
stop your jealousy
he's not into you or me
stop all your madness
it all turns out to his sadness
don't lie about it
don't hit it
just another way of specialty
don't you know that you're a jealous girl?

stop saying bottom line
it's all my dislike
he doesn't even like you
he doesn't know it's true
she doesn't know that
you make me go insane

(guitar solo)
