we ran away yesterday
we took a road trip to nowhere
we tried to start a brand new life
you forgot how i met you
wasn't that lie is the truth
when the wind blows through my face
feels like i've been chased
crawling on the ground
stab with my lies
speaking up right now
tortured me around

i want anything here
waiting to take away my tears
this rope we walk on will fray
but you're gonna be okay
i want something right here
waiting to wash away my fears
this bridge we walk on will fray
but you're gonna be okay

just listen to your heart
make a brand new start
we can take the pain together
you can throw me like a dart
unless we pull down forever
take five i won't get you out
listen to the weakness without
forget the day i've been out of misery
darn loosing it

i want anything here
waiting to take away my tears
this rope we walk on will fray
but you're gonna be okay
i want something right here
waiting to wash away my fears
this bridge we walk on will fray
but you're gonna be okay
i want anything here
waiting to take away my tears
this rope we walk on will fray

but you're gonna be okay
i want something right here
waiting to wash away my fears
this bridge we walk on will fray
but you're gonna be okay

you're gonna be okay
i'm gonna be alright
wake me or else
you're gonna be hurt
i hate everything you say
i love the way you pray
don't know what to do today
i can't get paid

(guitar break)

i want anything here
waiting to take away my tears
this rope we walk on will fray
but you're gonna be okay
i want something right here
waiting to wash away my fears
this bridge we walk on will fray
but you're gonna be okay
i want anything here
waiting to take away my tears
this rope we walk on will fray
but you're gonna be okay
i want something right here
waiting to wash away my fears
this bridge we walk on will fray
but you're gonna be okay
i want anything here
waiting to take away my tears
this rope we walk on will fray
but you're gonna be okay
i want something right here
waiting to wash away my fears
this bridge we walk on will fray
but you're gonna be okay
