Pump the brakes, you're a red-flag, red light  
Holdin' up for stop signs. I'll never be sloppy seconds  
Go ahead, take them back, your one, two, three  
minutes  
All you do is take, take, takin' off the little  
Got More goin' on I'd rather be eating glass, stick hot  
needles in my eyes, go ahead and tap that ass  
Draw them up, yeah like there's candy  
Girl I ain't tryin'a connect or paint a picture  
I'm not in it, never will be  
You can't be me, get your freak on, you can suck it,  
they've all seen it

And you liked it, now who wants it?  
Cotton candy sugar high  
Break your bones when you come down  
You're a one trick, my trick pony who's next to hop on  
Ride, ride, ride...  
Bout to bring a blood spill  
We've both been there, what's the next stop? I won't sit  
still  
Back to bring up what's real  
We've both been there, what's the next stop? I won't sit  
still
