"Follow Me"

something you said is on my mind
I'm the one you thought you'd never find
a sudden coastal holiday makes you see me in a
different way
your voice sounds so hollow
I'm glad to have you following me
listing off my favorite things
you say I have too many dreams
but first I wished and now it's true
I'm becoming awfully fond of you
your voice sounds so hollow
I'm glad to have you following me
you didn't know me and still you called
I didn't find it strange at all
seeming like the thing to do
I knew it then and so did you
your voice was so hollow
I'm glad you've come to follow me
follow me, follow me
follow me, follow me
