packing boxes all night  
reading letters from you for the last time  
for real  
leaving you behind was easy  
now I know how little you feel  
now I wasted all my wishes on you  
I have nothing left to gain  
so goodbye, wishing you well and hello rain  
I made a paper boat and watched it going down the  
drain  
so goodbye, wishing you well and hello rain  
thought I'd thrown them all away  
finding one last souvenir behind  
my bureau drawer  
feeling sad all on my own  
I don't need you for that anymore  
and I wasted all my wishes on you  
I have nothing left to gain  
so goodbye, wishing you well and hello rain  
I made a paper boat and watched it going down the  
drain  
so goodbye, wishing you well and hello rain

you can't stand to see me losing  
all my precious sinlessness  
now my heart is out of your hands  
you couldn't possibly want it back  
any less  
now I wasted all my wishes on you  
I have nothing left to gain  
so goodbye, wishing you well and hello rain  
I made a paper boat and watched it going down the  
drain  
so goodbye, wishing you well and hello rain  
goodbye, wishing you well and hello rain
