It's raining outside
I'm crying inside
It's raining outside
I'm crying inside

5 a.m in the dark
You like a cold fish with me
You're sleeping I'm thinking
You're turning your back to me
Here in my bed you're mad away from me
Here in my head you're never close to me

It's raining outside
I'm crying out loud
It's raining outside
I'm crying out loud
I run away by foot

Lost in the empty street
You are supposed to follow me
But you are too proud too do it
Here in my bed you're mad away from me
Here in my head you're never close to me
Come on... don't be mad I told you I need you
Come on... don't be sad I'm still in love with you

It's raining outside
may I come inside?
It's raining outside
may I come inside?

It's my fault, I'm sorry
Let me happy this fight
I apologize, would you hug me tonight?
Here in my bed you're mad away from me
Here in my head you're never close to me
Come on, don't be mad, I told you I need you
Come on, don't be sad, I'm still in love with you
