Give me all your love  
Cause for all we know  
We might be dead by tomorrow

I can't go on wasting my time  
Adding scars to my heart  
Cause all I hear is  
I'm not ready now

And I can tell  
That you didn't had  
To face your mother  
Losing her lover  
Without saying goodbye  
Without saying goodbye  
Cause she didn't had time

I don't want to judge  
What's in your heart  
But if you're not ready for love  
How can you be ready for life?  
How can you be ready for life?

So let's love fully  
Let's love loud  
Let's love now  
Cause soon enough we'll die [x6]
