And she eats  
Love's boy  
And she purrrs

You're gonna be okay  
It's nothing but a good dream  
Get back to your real life  
And you'll find you'll forget  
What it meant to be free  
Really free

Whole towns and cities move  
You're the king of the earth you choose  
And you'll find what it means to be free  
Come on in, let it flow  
This is real, can you feel

And she eats  
Love's boy  
And she purrs  
And she goes here

Come on in, let it flow  
This is real, can you feel
