won't you come closer
than close can bring you to me
but just give the only one that
fills
can we lay in this space until
forever until the moments around
us all lay still and tell me where do
we go in wide and traveling open road

Bilal :far in the night you and i
gone look back you'll find me

Solange:cosmic journey and i love
you i swear cosmic journey and i
love you i swear

won't you come deeper then deep
can bring you to me let the
words roll over your touge to mine
'cause i probably kiss you better then
i tell you and the way that you touch
feels so divine on my body

Bilal:to your mind and the
discovering image you'll find

far in the night you and i gone look
back and you'll find me

Solange:cosmic journey and i love
you i swear cosmic journey and i love
you i swear(lovers,lovers)cosmic journey
and i love you i swear('cause your the
shiniest star alive)cosmic journey(and i

light shining up your world (solange:yes i
