My family my friends and the job  
I have the life, I live  
These are the things that put a smile on my face, my  
face  
My mama's food, my daddy's rule  
Their love for me, kisses and hugs for me  
These are the things that just plain make me happy,  
happy

The things I love, make me appreciate  
The things I love, where I am today  
The things I love, don't go too fast  
Live everyday like it's the last

It's the feel good song when you just take a moment  
To reflect all the things that make you feel good  
It's the feel good song when  
There's nothing wrong with, just feeling, feeling good

Listening to music, waiting for cupid  
To find the one, just having fun  
These are the things that make life what it is  
It is good old Sundays being lazy  
Chillin' with my girls, ignoring the world  
These are the things that makes life good to me, to live

The things I love, make me appreciate  
The things I love, where I am today  
The things I love, don't go too fast  
Live everyday like it's the last

It's the feel good song when you just take a moment  
To reflect all the things that make you feel good  
It's the feel good song when  
There's nothing wrong with, just feeling, feeling good

I just want to feel good with y'all  
Just want to feel good with y'all  
Is it okay if I feel good with y'all  
The feel good song, I feel good with y'all

I just want to feel good with y'all

Just want to feel good with y'all  
I know you won't mind if I feel good with y'all  
The feel good song, I feel good with y'all

It's the feel good song when you just take a moment  
To reflect all the things that make you feel good  
It's the feel good song when  
There's nothing wrong with, just feeling, feeling good
