[N.O.R.E]

What types of games are bein played
Hows it goin down
This shorty put a smile on ya face
Not a frown
I'll take you up town and show you around the palm
pound
If you want it i got it im ready to down
And aint things changed but my drawers and sock
Im gettin doors kicked in
Havin wars with cops
I still sustain, maintain the same old G
Its the Solange remix N O R E(yeah)

(Solange)

There is this guy that im diggin
What ive been lookin for don't know where to begin
We've been talking, not enough
But when we do talk
The things that he says i do love
When i see him and we talk
There is this vibe between us i don't wanna stop
So original and so deep
This guy is just like me

[chorus]

Hey, uh, lets try somethin
Lets try to be together
Wrong choice of words
I just want time together
Whos knows we could really like each other
Give me a chance, I'll change your mind forever
You need someone that could help you
To clear your mind and that's what i will do
'cause baby boo, who'd ever knew
That i'd end up really feelin you

(Solange)

He told me i was beautiful
But what if he tells that to every girl he talks to
'cause im not the only

But actually wish that i could be
Hes what ive been lookin for
Like no other guy that i know
Be'cause he is spo right
I swear i think about him from morning to night

[chorus]

[N.O.R.E.]

Yo, yo, you see im twenty-five but im feelin like im thirty
Hustle hard in the streets
Got my fingernails dirty
Im a veteran, sell medicine
To pay the con edison
Shorty love of my life
And feel better then
Love her when im down and out(ohh)
Even love her when im wylin out(ohh)
Cheat on bark from the blocks that i be on
When a brothers stressed she's the shoulder that i lean
on

(Solange)

Hes got this hypnotizing smile
That makes me stop and realize he's good looking
But that is not what attracted me, tacted me
So fabulously matched me to him
It was his style and persona
How he does what he does
His whole walk how he talks is true
So maybe we should and we could
Put all things aside,spend some time
'cause im feelin you

[chorus]

There is this guy that im diggin
(Id end up really feelin you)
There is this guy that im diggin
(Id end up really feelin you)
There is this guy that im diggin
(Id end up really feelin you)

Whod ever thought that I..
