"Under Contruction"

Visit "[Under Contruction](#)" on [MotoLyrics.com](#)

Brick, brick

Brick by brick
You know you build up a pretty big bridge
Now don't you tell me SOMETHING
All over again

Caution here
Now I'm scared I may just hit my head
You're taking me step by step
I'm falling again

You got me under construction

Walls
Wall by wall
You felt this home barely hanging at all
But I know you won't let me fall
All over again

Now by now
I hear you pushing, you pushing me well
You know when I'm going through hell
You feel me again

You got me under construction
