Infliction  
Knee-deep in tragedy  
Anathematized  
Lifelong-seeded grief  
Worn to a thread by  
Recurrent distress  
Sorrowful years of retrieval  
Escaping into an asylum  
Of dreams  
Chemical cure of the soul

[Chorus:]

Last setback - Final defeat  
No more going into reverse  
This time the sun will set forever  
On an empty shell of unconcern

Wading through waters of  
Frequent deceit  
Suffering constant betrayal  
Repeatedly stabbed in the chest  
By mishap  
Autumnal wasteland at heart

[Repeat Chorus]
