Puppet on a string all that I am  
Pull a little harder and watch me dance  
I can't control what I can't understand for now  
Everybody wants me to fit with their plan  
Some want the cynical and some want romance  
Some want the chemicals to bring on a trance for now

At night I rest at night I sleep  
The whole world turns around  
I pray the lord my soul to keep  
Until it comes around again

Puppet on a string all that I am  
Everybody wants me to fit their plan  
I can't control what I don't understand for now  
Some want the cynical and some want romance  
Some want the chemicals to bring on a trance  
Fate oscillator making crazy demands for now

At night I rest at night I sleep  
The whole world turns around  
I pray the lord my soul to keep  
Until it comes around again

Puppet on a string all that I am  
Puppet on a string watch me dance  
Puppet on a string it's out of my hands for now

Puppet on a string all that I am  
Puppet on a string watch me dance  
Puppet on a string it's out of my hands for now
