Violence rules, violence rules, violence rules
Violence rules, violence rules

Violence rules, guns are cool
And we've got guns in our school
Violence rules, guns are cool
And we've got guns in our school

20 people livin' on a desert isle
They're all friendly they all smile
Then the food supply gets too low
20 people 10 gotta go

Violence rules, guns are cool
And we've got guns in our school
Violence rules, guns are cool
And we've got guns in our school

1,000 people gather in the streets of Manhattan
The lights go out, guess what happens?
It's time to steal, it's time to shoot
It's time to rob, taste my boot

Violence rules, violence rules, violence rules
Violence rules, violence rules

Violence rules, guns are cool
And we've got guns in our school
Violence rules, guns are cool
And we've got guns in our school

Violence rules, guns are cool
Violence rules, guns are cool
Violence rules, guns are cool
And we've got guns in our school
