"Good Comrades Go To Heaven"

Claims to have the world' most dangerous variety trick
The wife sits perched on his desk ready to take the
next dictation

She was the embodiment of the 'good comrade'
I just don't think they never ever had a better day
What a day that was. Hmmm...

Sure she had to much manly gossip and old brandy
She reported the first warm spring weather over the
weekend

They could have cheerfully gone on being in debt
I just don't think they never ever had a better day
What a day that was. Hmmm
