Look for some place where we can stay the night
Why did you have to get into a fight
That's just what I was going to ask you
I just thought that would put new life in you

Hot diggity dog run run run

Have some fun
Slap that girl on her bum
Have some fun

Hot diggity dog run run run

Look for some place where we can stay the night
Why did you have to get into a fight
That's just what I was going to ask you
I just thought that would put new life in you

Hot diggity dog run run
