I slapped a pound note
Down on the counter
'Make that three I ordered and make it snappy, sir'
'Make that three I ordered and make it snappy, sir'

And they thought I looked
The other way when
They were standing
They were standing in the lee of a slag-heap, making
water
And I'm glad I did

I slapped a pound note
'Make that three I ordered and make it snappy, sir'

They are quite touchy
About anything
Like that personal
Stuff I had simply pasted the new photo over the old
one
And I'm glad I did

And they thought I looked
The other way when
They were standing
They were standing in the lee of a slag-heap, making
water
And I'm glad I did
