## "The Savior"

Visit "[The Savior](#)" on [MotoLyrics.com](https://MotoLyrics.com)

From a very distant corner  
Somewhere out in space  
Hear the crying of a planet  
Falls into disgrace  
Human termites eat their mother  
The womb that gave them life  
Time is short, destroy all humans  
Before the plague is rife  
A flash of light  
Thunder and fire from the sky  
He's come to kill he's come to save you  
End of mankind  
A new beginning for new lives  
He's come to heal he is the savior  
From the stars  
Carrying out the disinfection  
Through the galaxies  
Rid the Earth of the human virus  
Mission to complete
