Thunderbolts and nightsticks  
Coming out of the sky  
Flames overhead  
Rain until you cry  
My baby's on the highway  
Come in from the cold  
Never going home, never going home  
D for disaster  
E for my eyes  
A for my anger  
D before I die  
M for Mona  
O oh good  
O oh good  
N for the night  
Dead Moon Night

Call me if you need me  
Down in New Orleans

Can't release the victims  
Have you seen what I've seen  
In New York City  
Don't you cross the line  
Guard it from the light, guard it from the light

Hazard on the highway  
Breakin' down slow  
They thought she was lookin'  
Now I'm all alone  
I'm often abandoned  
Won't you take me home  
Now I'm all alone, won't you take me home
