The old ones take their money to the grave  
That's what they say  
Youth is wasted on the young, I don't think so  
But wait you'll see  
Don't, don't, don't, don't speak ill of the dead

So many times I thought I'd end it all  
Take the fall and slip away  
Some of my friends have done the main

I never had that much pain  
So don't speak ill of the dead

Some of my friends are gone forever  
Paled into the light  
Things I wish I could have said  
As they passed into the night  
I miss you  
Don't speak ill of the dead
