I try to go on without you
That doesn't seem to work
I try to forget all about you
But that only hurts me worse
Well I try hard to smile but it doesn't feel right
Everyone knows what I'm thinking
What I say is just hiding the tears in my eyes
Baby my whole heart is breakin'? breakin'

Can't help what I'm feeling when
I look in the mirror and
Couldn't be any clearer cause
Nothing looks good on me but you
I just have to say that
Baby, you're the greatest thing
I don't think I can shake it 'cause
Nothing looks good on me but you

And you know it
Baby why don't you turn back
I miss the way that you love me
Like in that picture of you making me laugh
Well I try to go out
With some other guys
That only puts me back where I started
Cause deep down below I just got you inside
Knowing full well where my heart is, heart is

Can't help when I'm feeling when
I look in the mirror and
Couldn't be any clearer 'cause
Nothing looks good on me but you
I just have to say that
Baby you're the greatest that
I don't think I can shake it cause
Nothing looks good on me but you

Nothing looks so good on me but you, baby

No baby nothing fits
I can't make any sense of this

Just thinking about your lips on mine
I need you to know
I made the biggest mistake of my life
I need your love so
Can we talk about it tonight?
Baby let's talk about it?.

Can't help when I'm feeling when
I look in the mirror and
Couldn't be any clearer cause
Nothing looks good on me but you
I just have to say that
Baby you're the greatest that
I don't think I can shake it 'cause
Nothing looks good on me but you

Can't help when I'm feeling when
I look in the mirror and
Couldn't be any clearer cause
Nothing looks good on me but you
I just have to say that
Baby you're the greatest that
I don't think I can shake it 'cause
Nothing looks good on me but you

You're the best thing I ever had
Nothing looks so good
No, no
Nothing looks so good on me but you
Nothing, nothing looks good on me but you
