You like to point finger  
You like to lay the blame  
I'll never understand this game you play  
You do the crime  
Just serve the time  
That's just the price you pay  
You put me down every chance you get  
You talk a good game just back it up  
Your talk is cheap and words mean nothing  
To people like me i never hear you  
Don't waste my time  
Don't waste your breath  
Words mean nothing lk is cheap  
Don't waste my time  
Don't waste your breah  
Your words mean nothing  
Don't look at me  
Fuck you
