You know i hardly say the right things,  
But my heart is always listening.  
To me you're the sweetest thing to sing about,  
And i hope you always miss me.  
Tonight i'm missing you so bad, tonight tonight.  
Why can't you be right here with me?  
Just you and me.  
I hope you know you keep me from falling off,  
And i'm so glad you came to see me,  
I'm almost sure that it was meant to be,  
The sweetest smile and one day you'll see.  
Tonight i'm missing you so bad, tonight tonight.  
Why can't you be right here with me?  
Just you and me.  
But distance makes the best of us  
And one day i will be the closest human being to your  
home,  
When you were alone i wanted to kiss you eternally.  
Tonight i'm missing you so bad, tonight tonight.  
Why can't you be right here with me?  
Just you and me.
