"Don't Be Silent"

Visit "[Don't Be Silent](#)" on MotoLyrics.com

You've fallen deep
You've fallen deep
It's not over
It's not over

Don't be afraid
Don't be afraid
Because
I don't think that it's over now

The lights start to growing
The fog starts to go by
Please say goodbye to yesterday

Facts aren't made by
Some filthy news-guys
Please welcome our world today

We don't bother if there's a wall or a door
We just count the seconds 'till they will fall

Don't think you're alone
Don't think you're alone
And don't believe in their news
Don't be silent
Don't be silent
Don't be silent
Don't be silent

The lights start to growing
The fog starts to go by
Please say goodbye to yesterday

Facts aren't made by
Some filthy news-guys
Please welcome our world today

We don't bother if there's a wall or a door
We just count the seconds 'till they will fall
