

Sommerset "Harmony"

Visit "[Harmony](#)" on MotoLyrics.com

Sit back the world is watching
Every movement and the way you're breathing
(forget the free with harmony and hold it inside)

Cold blood and the heat is rising
Don't believe in a way to bring you down
(forget the free with harmony)

The song for meÂ.... the song for meÂ....lies in a world
within a vision
No better time than now to light the fuel
So burn the picture
(I can't send my warning)

To make it last a long time
So burn the picture
(I can't send my warning)
Can't let it pass you by

Sit back the world is watching
Every movement and the way you're breathing
(forget the free with harmony and hold it inside)

Cold blood and the heat is rising
Don't believe in a way to bring you down

The song for meÂ.... the song for meÂ....lies in a world
within a vision
No better time than now to light the fuel

The song for meÂ.... the song for meÂ....lies in a world
within a vision
No better time than now to light the fuel

So burn the picture
(I can't send my warning)
So burn the picture
(I can't send my warning)
Don't let it pass you byÂ..... don't let it pass you by!
