Master criminal  
Like you knew before  
Now you plot out the start can you plot out the end

Over-rated now  
Over-stated too  
How it was at the start how it is at the end

The five letter word on your cars rear window  
Provisor for war on the foreign shore

Master criminal  
That you knew before  
Now you plot out the start can you plot out the end

The five letter word on your cars rear window  
Provisor for war on the foreign shore

The sweat of the industry secret handshake  
Obliteration of the sacred feminine

MagdaleneÂ... magdaleneÂ...  
Now your bones turn to dust  
While they suffer his love like a holocaust

MagdaleneÂ... magdaleneÂ...  
Now your bones turn to dust  
While they suffer his love like a holocaust

MagdaleneÂ... magdaleneÂ...  
Now your bones turn to dust  
While they suffer his love like a holocaust

MagdaleneÂ... magdaleneÂ...  
Now your bones turn to dust  
While they suffer his love like a holocaust
