Jupiter said remember when you'd move a mountain  
So many ways you'd wanna let go  
When dreams of better days don't exist my friend  
Just break the wall to find the centre

Jupiter said in time you'll see you have no feeling  
No course of thought and no direction  
Forget the easy way and sit in your cell  
For other chances to deliver

I need a reason to find your flesh and bone  
Why need a reason now go my son  
I need a reason to start a war against them all  
Why need a reason now go my son

Now bellow on the sick call  
I know it'll be somewhere  
My soul is there

I need a reason to find your flesh and bone  
Why need a reason now go my son  
I need a reason to start a war against them all  
Why need a reason now go my son

Now bellow on the sick call  
I know it'll be somewhere  
My soul is there

Now bellow on the sick call  
I know it'll be somewhere  
My soul is there
