Sense your pride it makes no sense
We've bled we've died for less
I take my fall for your god
I can't replace

Too late to hide from my pain
Too late to hide it from my

Step it only takes one step
To see what makes you tick
Forbid forsake and forget
Now watch me slip

Too late to hide from my pain
Too late to hide it from my

I've started bleeding
Trying to heal what you severed
The time it takes (will you)
To walk away (let go)
We'll only see when I bleed what I broke so
It's only me (will you)
It's only me (let go)

Sense your pride it makes no sense
We've bled we've died for less
I take my fall for your god
I can't replace

Too late to hide from my pain
Too late to hide it from my

I've started bleeding
Trying to heal what you severed
The time it takes (will you)
To walk away (let go)
We'll only see when I bleed what I broke so
It's only me (will you)
It's only me (let go)

Sense your pride it makes no sense (makes no sense at all)

Sense your pride it makes no sense (makes no sense at all)

Sense your pride it makes no sense (makes no sense at all)

Sense your pride it makes no sense (makes no sense at all)
