Two tales must be finished one an angel and the other
a beast
Introductions made, now time has come to, complete
the story

Pandora, if one managed to persuade, her to open the
box
To gain entrance this, box is opened mankind is over

Grotesque sights horrid, twisted flesh abomination
pain and suffering screams of a billion crying out all at
once and flesh

Light is consumed, happiness is lost can you see her
sorrow
Her only purpose, to guard this, weapon hell
concentrated to a single point, the mother the first one

Condemned, naked, helpless holding, this object is,
tears never ending, soon she will open, ending it all,
knowledge unnerving, her patience allows her to go on

Living in love still exist one movement of her beautiful
wrist will end all this

Medusa
Her head is a perfect weapon
Now head in hands news spread fast

Medusa is slaying beheaded by precious only her body
remains, his conscious tears at him is no prize
But its a weapon, one could rule all nations with the
monsters head,

gift meant for the tyrants, forcing his mother to wed
Turn to stone with a single gaze, from the head, safe,
in no mans hands but its back to the heavens

Athena must, take it place onto, her shield scales, of
hundreds slither, hideous daughter and sister of two,
hate all mankind and he must slay them, both, rage
potent

sister lost, seeking revenge on all, who are mortal to
find, and kill the one who saved
Andromeda, from, the beast, potent sister, is lost,
seeking revenge, on all.
