I know about how bleak it all can seem
when you look at good or bad
you say this is what I had
and I know it is ambitious but it's still the truth
I have something that's lasting in a man
my heart has survived an order through the ruins
the shadow and it's promise vibrates across the room
you said it's savage but it's my duty
to build something precious than to kill something
precious
then the shadow and then the promise clearly lost its
nerve
don't leave me now(x2)
just say you're practicing for how you would say
goodbye(x2)
don't leave me now(x3)
