"Promise Not To Quit"

everyday since we met
I have made a list of
what I have and what I didn't get
without working hard for it
without working hard for it

you are the one thing
on that list I could never earn
you are the one thing
on that list I could never earn
but I promise not to quit
and I promise not to quit

and everyday since we met
I have made a second list of
what I have and what I'll never get
you are the one thing
on that list I'll never get
but if I do get it
if I do get it
if I do get it
I will work to make it work
I will work to make it work
I will work to make it work
I will work to make it work
and I promise not to quit
and I promise not to quit
yes, I promise not to quit
and I promise not to quit
yes, I promise not to quit
