the broken times  
self-confidence must be  
it's obviously  
selfish to preserve,  
selfish to pursue  
i guess it's the proper way  
to go on to loving  
begin with nothing  
begin with nothing  
begin with nothing  
and so here's the state  
that love's left me in  
in the estate of the redhead  
and what does it mean  
she don't need the proof  
of my failures  
or all the nights  
when i earned my failure  
and i suppose  
i've not been rejected  
and i suppose  
we've not been a failure  
and i suppose  
that we're proof of it
