a resolute moment returns  
and that's how close I got to you  
it's as red as the target heart  
even the sky's been influenced by you  
and it ends all that doubt  
it's true for any or all of us  
there's never a good night to be  
everything I've ever loved is here tonight  
or the wish that it was here tonight (is here tonight)  
everything that you need for truth is here tonight  
or at least the wish for it is here tonight  
and I am taken my chance here tonight  
on that target heart  
it is red as the target's heart  
even the sky was influenced by you  
see how the self can be made and remade(x2)  
but the truth can either be made but can't be remade  
love can't be made or remade
