(All in! ) Original SB6.

(All in! ) Coolie Ranx with the New York connect come,

(All in for free.) Original SB6.

Relax, mind the gap and dance the music.

(All in! ) I feel no pain when music hit me

(All in! ) 'Cos I can see the bug that bit me;

(All in for free.) Positivity.

One and the same a-fih we.

So let me welcome everybody in the place, I'm feeling  
mad delighted.

It's a party on this beat and you're all invited.

If you not look like the next man don't feel small or  
slighted,

It's like I'm not from Manchester but we're all United.

All cliques, crews, bands, fans, old-friends and new,

Nieces and nephews, man'dem I still ain't met too,

With this one going out to every single one of you

So let me lose your blues and let the music fuse.

You know that, happy days ain't a passing phase;

My passion's not a fashion, man, surpassing all the  
cashing-in

To the next craze from the cathode rays.

We need a unity mission, no omission in my vision.

I'm talking about the invitation every nation generation

And relation to elate the congregation.

Never need a reservation

Or an explanation for your outer presentation.

Well ever since we introduced the Boom with Sounds  
To Consume

Can I presume you ain't assuming all this doom and

gloom?

All these kids that go to gigs in Halloween costumes,  
You used to play a fucking trumpet now you're flying a  
broom knob head.

Too many ride the tides for where the pearls be  
And dropped the politics for where the make-up girls  
be,

Running where the dollar is, diluting the messages  
From positive to negative. Delirious of hearing this.  
I'm serious, my theory is no matter what the year it is  
The people can't ignore what been created pure.  
And even if we live obscure from it  
I still be buzzing off the underground 'cos that's my  
shit.

I'm talking about the invitation every nation generation  
And relation to elate the congregation.  
Never need a reservation  
Or an explanation for your outer presentation.
