Come on down! You are the next contestant  
Sorry to burst your bubble, it looks like Global trouble  
Beards WMD's and chemicals that cause disease,  
So step right up, we've got them all on Trading Blood  
for Oil

Prepare for the thrills and spills they're calling  
Collateral damage  
The price of the life of an Iraqi, is less than Texas tea.  
A few of the population, for the prize of Global  
domination,  
It's Friday night so come on down the price is right.

It's time to sit back and enjoy the show.  
It's new, full color and improved  
And this time we'll be liberating everything that moves!  
24/7 see it blow by blow  
It's new, don't let your morals spoil  
Another gripping episode of Trading Blood for Oil

You can lead a horse to water but you'll never make it  
ask for proof  
The public believe anything that isn't founded on the  
truth  
I'll never die for my beliefs cos, hey I might be wrong  
But I'll be strong enough to take a stand today and say  
'HEY! '

Just because I'm brown it doesn't mean I fly around  
And dream of knocking buildings down  
They're living in your town (BOO! )  
Once you can believe in such utter absurdities  
You can commit atrocities  
You're ready, come on down!

It's time to sit back and enjoy the show.  
It's new, full color and improved  
And this time we'll be liberating everything that moves!  
24/7 see it blow by blow  
It's new, don't let your morals spoil  
Another gripping episode of Trading Blood for Oil
