So shall we take a trip tonight?
I'll take you to a place where there's no wrong or right
Just take my hand.
It really isn't far away
And deep into the night the lost children play
In this England...

There's always something we can do, so don't you stay
inside
How easy things a catch a fire
C'mon join the joy ride
Just like Margaret Thatcher said to we 'there's no
society
Just individuality.'
So come with me

These Fairytales have all come true
A nightmare showing near to you
Let the children play, look look the other way
There's no morality to
Our arguments of wrong and right
Overspill or oversight?
Too late to educate
And now it's out of mind and left behind

There's always we can see
No family values
In this disaffected community
No easy answers.
See the mind inside a Burberry cap
And try to find the pride
Of being caught inside a trap
Say 'fuck authority'

Don't love you cos u don't love me
You left me on a shelf
How can your values govern me?
Don't even love myself
When anger is suppressed it finds
A way of rising up
I know because it's where I grew up
So come with me

These Fairytales have all come true
A nightmare showing near to you
Let the children play, look look the other way
There's no morality to
Our arguments of wrong and right
Overspill or oversight?
They were left to mutute
And now it's out of mind
Forgotten isolate
And left behind
On this fucking estate
How could they be so blind?
Branded, abandoned as a social mistake

What else, what else can someone be?
Let the children play, look look the other way.
When all, that you can see is negativity.
How else, how else can someone be?
Let the children play, look look the other way.
How else, how else can someone be?

These Fairytales have all come true
A nightmare showing near to you
Let the children play, look look the other way
There's no morality to
Our arguments of wrong and right
Overspill or oversight?
They were left to mutute
And now it's out of mind
Forgotten isolate
And left behind
On this fucking estate
How could they be so blind?
Overspilled and abandoned like a bad mistake

What else, what else can someone be?
Let the children play, look look the other way.
When all, that you can see is negativity.
How else, how else can someone be?
Let the children play, look look the other way.
How else, how else can someone be?
Look the other way, let, let the children play
Just lock your doors and look away.
