step on outside and breathe the daylight
cause your friends don't see you the same
they should know they're the ones to blame
forget it now and take your place in the light
look deep inside and find your peace of mind
just ignore the voices down the road
i know your friends can lay a heavy load
think of what you know and not what you've been told
don't be fooled by fools who will never ever know
step on the outside and breathe the daylight
cause your friends don't see you the same
they should know you're not the one to blame
and they think they've got you underhand
but you know they'll never understand the truth
you know it's true
you know it's true
you know it's true
step on the outside
step on the outside
step on the outside
step on the outside
step on the outside
step on the outside
step on the outside
step on the outside
step on the outside
step on the outside
step on the outside
