"Big Black Cadillac"

Visit "[Big Black Cadillac](#)" on MotoLyrics.com

Come on baby jump into my big black car
We'll take it real slow, baby won't drive you too far
We'll go to the back in my big black Cadillac

We can rock down the highway, cruise through the
middle of town
Take you where you want to go, big ol' deal goin'
down
Riding in style as the night grows black
In my big black Cadillac

Got a turbo glide and cruise control,
That machine can rock and roll
Strap in on baby, you're in for a ride
When I shove it on down in over drive

Roll back the rag top, the motor is cooling down
When you're in need you know where I can be found
So if you ever get lonely remember the back of my big
black Cadillac

It's got a turbo glide and cruise control,
That machine can rock and roll
Strap in on baby you're in for a ride
When I shove it on down in over drive
