Truck's warming up in the drive
Time to head into work
There's that angel of mine lying there in my shirt
It's like this everyday
I stand there wanting to stay
I know I've gotta go
But she don't make it easy, lookin that way
Man, I'm such a sucker for that smiling face
She's got my heart wrapped around her finger
And I don't think I'll ever break free
She don't make it easy, she don't make it easy on me
Sometimes that woman and me let things get outta
hand
Say some things we don't mean, and I decide that I'm
mad
I stomp around and don't speak, try to make sure she
sees she's wrong
Aw, but I don't last long
But she don't make it easy, lookin that way
Man, I'm such a sucker for that smiling face
She's got my heart wrapped around her finger
And I don't think I'll ever break free
She don't make it easy, she don't make it easy on me
Some nights I'm dog tired, can't wait to lay down my
head
After spendin all day on my feet
Then she walks in with her hair up, crawls into bed
Yeah I know I should just go to sleep
But she don't make it easy, lookin that way
Man, I'm such a sucker for that smiling face
She's got my heart wrapped around her finger
And I don't ever wanna break free
She don't make it easy, she don't make it easy on me
Lookin that way
She don't make it easy on me, lookin that way
