(written by Vince Gill and Reed Nielsen)

So many people just go through the motions  
We weren't any different now and then  
But we made it through, just me and you  
We'll never make the same mistakes again

Chorus:

(And) Let's not lose each other anymore  
'Cause time is precious and life's too short  
We have found the love we've waited for  
(So) Let's not lose each other anymore

Oh, so many times we took our love for granted  
Said some things we never meant to say  
But after all those years and all those tears  
Through it all we always found a way

(Repeat Chorus twice)

We have found the love we've waited for  
Let's not lose each other anymore
