In our most painful moments
Lost in the cloak of night
Burned, broken, tired, hopeless
No future is in sight

Where are we even going
And who among you cares?
With no real purpose showing
A cycle of despair

A never ending threat
A constant pushing force
My match is finally met
Let this thing take its course

New blood flows in our veins
Power moves quickly now
None of us will be the same
Giving up we won't allow

Our last sun has set
As we approach our fate
With one option left
To destroy and recreate

We are the new generation
With purpose, conviction and dedication
We are the new generation
With purpose, conviction and dedication

Counting past the final hour
In flame we've been reborn
A pure stronger power
A new oath we have sworn

These nights mean too much
To just let them go
Putting on the final touch
Our true colors show

We are the new generation
With purpose, conviction and dedication

We are the new generation
With purpose, conviction and dedication

On the phoenix throne
Death and rebirth
On the phoenix throne
Death and rebirth

Nothing as far as the eye can see
A straight, clear path moving
Towards our destiny

And now we rise, we rise
We rise on wings of flame
And now we rise, we rise
We rise on wings of flame

Nothing holding us back
As we rise on wings of flame
Momentum pushing forward
As we rise on wings of flame

We are fire born
As we rise on wings of flame
We are the phoenix
As we rise, we rise
We rise on wings of flame
