"Face To Face"

I can't stop my feeling
Baby, I been this way before
But with you I found the key
Just the key to open the door

You can't ask for more now
You can't ask for more
Got to make you more
Got to make it to the groove
What you feel is what you got
What you got is that what I feel

Face to face
Love that I am feeling
Is that I've been searching for
Face to face
Love that I am feeling
Growin' stronger day by day

Can't you feel my love
It will be with you every day
I can't wait to see you, baby
'Cause I need your love right way
