"Soft Time"

Visit "[Soft Time](#)" on MotoLyrics.com

I can't live without you
I can't ever love a man
I wanna discover you
You get inside me

Just you are my lover
Your killing me softly man
I look in your eyes
And they stop to die

But if you get me over
We'll love like any other
I wanna take you higher
Lonely ways...

I wanna stay to soft time
Just bury love forever
I wanna creep into the soft time
Never can change my heart
I wanna feel into the soft time
Just you and me together
I wanna live into the soft time
Never can change my heart

Now you are my lover
Forget all your foolish pride
I look in your eyes
And they stop the time
