Take it all in

Let it all out

Can you help me?

Can you tell me why?

What made my heart sink

Now makes her cry

Drown my sorrows with another wine

But it won't work this time

However hard I try

I've gotta pick myself up off the floor

Kick these feelings out of the door

I take it all in

I let it all out

My world's in a spin

Some things you gotta shout about

Cause when you're down with love

There's nothing you can do

What you want

Try as you might

So hard to fight

Some things you can't live without

And when you're down with love
There ain't no cure at all
Jaded heart I've lost my appetite
And I can't see
An end in sight
Oh won't you bring back blue skys
Baby hold me tight
If you're not here with me
You know I dread the night
I've gotta pick myself up off the floor
Kick these feelings out of the door
I take it all in
I let it all out
My world's in a spin
Some things you gotta shout about
Cause when you're down with love
There's nothing you can do
What you want
Try as you might
So hard to fight
Somethings you can't live without
And when you're down with love
There ain't no cure at all
I'll never love again
If this is how it ends
And I don't wanna be down, down, down, down, down

Down with love

Down with love

Down with love

I take it all in

I let it all out

My world's in a spin

Some things you gotta shout about

Cause when you're down with love

There's nothing you can do

What you want

Try as you might

So hard to fight

Somethings you can't live without

And when you're down with love

There ain't no down

When you're down with love

There ain't no cure at all
